SUMMARY

Information Technology undergraduate with hands-on experience building backend applications using Spring Boot, REST APIs, and MySQL, along with full-stack web applications using React. Experienced in developing AI-powered applications and solving real-world engineering problems through scalable software solutions. Strong foundation in Java, Object-Oriented Programming, DBMS, and Data Structures & Algorithms. Seeking Software Development, Backend Engineering, and Full Stack Development opportunities.

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript

Backend: Spring Boot, REST APIs, JWT Authentication, Maven

Frontend: React.js, Tailwind CSS

Databases: MySQL, MongoDB

AI: LLM Integration, Prompt Engineering, RAG Fundamentals, LangChain

Tools: Git, GitHub, Postman, OpenAI API, Vercel

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Java Developer Intern

May 2025 – June 2025

Vercen Technologies Pvt Ltd

India

- Designed and developed 5+ REST APIs using Spring Boot for enterprise application modules.
- Improved backend performance by optimizing MySQL queries and enhancing API response handling.
- Collaborated in Agile development processes including sprint planning, testing, code reviews, and deployment activities.

PROJECTS

TaskBrain AI

Spring Boot, React.js, MySQL, JWT, OpenAI API

- Developed an AI-powered task management and progress tracking platform with secure JWT-based authentication.
- Built 10+ REST APIs supporting task allocation, scheduling, progress monitoring, and team collaboration workflows.
- Integrated AI-driven recommendations for technology stack selection and productivity planning.
- Designed normalized MySQL schemas and optimized database interactions for efficient task management.

AI Resume Analyzer

React.js, Tailwind CSS, Puter.js, LLM Integration

- Built an AI-powered resume evaluation platform for ATS score analysis and job-description matching.
- Implemented AI-assisted resume feedback, keyword analysis, and improvement recommendations.
- Integrated Puter.js for backend functionality and AI-powered processing workflows.

Course Registration System

Spring Boot, React.js, MySQL

- Developed a full-stack course registration platform enabling student enrollment and course management.
- Implemented CRUD operations using Spring Boot REST APIs and MySQL database integration.
- Designed responsive user interfaces using React.js for efficient data management and user interaction.

EDUCATION

Bachelor of Technology in Information Technology

2023 – 2027

SNS College of Technology

Coimbatore, India

- **CGPA:** 8.16/10
- Relevant Coursework: Data Structures & Algorithms, DBMS, Object-Oriented Programming, Operating Systems, Computer Networks, Generative AI

ACHIEVEMENTS

Solved 215+ Data Structures and Algorithms problems on LeetCode covering Arrays, Strings, Hash Maps, Linked Lists, Stacks, Queues, and Binary Trees.

Built multiple full-stack and AI-powered applications using Spring Boot, React.js, MySQL, JWT Authentication, and LLM integrations.

Developed backend-focused projects involving REST APIs, authentication, database design, and full-stack application development.
